

Notes

Locate the Apex 2x DC module and faceplate in a convenient location to connect the two power supplies. The module will need to be fitted in a standard UK single gang back box.

NB the power cables attached to the Apex module are 150cm long

Between the connecting block (CS-IWCB) and amplifier you will need to run stereo audio coaxial cable for example stereo RCA cable without connectors.

Location of power supplies -
1x for iPort
1x for NuVo ZA215

To PSU
(using DC extension)

Key

- In-ceiling speaker (pair)
- Speaker Cable (Oxygen Free Copper - OFC)
- Twin core audio coaxial cable
- 12v power extension cable
- Cat.5e cable

CyberSelect
technology for the home

iPort in-wall iPod docking station (IW20 or IW21) with NuVo in-wall amplifier. Using (CS-IWCB).
